RE: Implementation of CFS Window Fee Effective 09/01/2018

Due to recent increases in our overall operating expense directly targeting our Import Consolidation Containers, Port to Port Inc is forced to implement a **“CFS Window Fee”** in the amount of **\$35.00 effective September 1st 2018** applicable to each house BL within our US Customs Bonded CFS consolidation containers.

The window fee is specifically designed to create the needed revenue that is lacking in the processing of these type of loads.

This fee will be due on each shipment prior to release of cargos.

We sincerely appreciate your understanding in this matter and look forward to our continue working relationship as we move forward together. Thank You.

Most Respectfully,

Port to Port Inc
